

Javier Riego Zamanillo

Senior Backend Engineer – Java & Spring Boot
javierriego10@gmail.com | github.com/mrjr10 | +34 697 20 24 72 | Spain

Skills

- **Backend:** Java, Spring Boot, JPA, Hibernate, REST APIs, Microservices
- **Messaging & Integration:** RabbitMQ, AMQP, Event-driven architectures
- **Databases:** MySQL, PostgreSQL, MongoDB
- **Cloud & DevOps:** Docker, CI/CD, GitHub, GitLab, AWS, Azure
- **Other Technologies:** Python (FastAPI), TypeScript, Node.js, React (Next.js)
- **Software Engineering:** Clean Architecture, API Design, System Integration, Performance Optimization
- **Languages:** Spanish (Native), English (Professional)

Experience

Backend Engineer (Java / Spring Boot) – Spain 2024 – Present

Backend development in enterprise environments focused on APIs, distributed systems and system integrations.

- Designed and implemented REST APIs using **Java and Spring Boot** for enterprise applications.
- Developed database-driven services using **MySQL and PostgreSQL**, optimizing queries and data access layers with JPA and Hibernate.
- Integrated distributed services using **RabbitMQ** for asynchronous communication and event-driven processing.
- Built containerized deployments using **Docker** and collaborated on automated pipelines with **CI/CD**.
- Participated in the design and implementation of scalable backend architectures focusing on maintainability and performance.

Software Developer – Spain 2023 – 2024

- Developed backend services and internal tools using **Java and Spring Boot**.
- Implemented database access layers and business logic for enterprise systems.
- Worked with REST APIs and system integrations between different enterprise platforms.
- Collaborated with cross-functional teams to design and deliver production-ready features.

Education

Bachelor's Degree in Computer Engineering (In Progress) 2025 – Present

Advanced Technical Degree in Web Application Development (DAW) 2021 – 2023

Advanced Technical Degree in Systems Administration (ASIR) 2019 – 2021

Cybersecurity Specialization Diploma 2023 – 2023

Additional Information

- Strong interest in backend architecture, distributed systems and scalable software design.
- Continuous learning in cloud technologies, security and system design.
- Currently improving skills in system architecture, DevOps practices and leadership in software engineering.
